Description

The innovative technology of the ride-on trowel Husqvarna CRT 60X features our most powerful hydraulic drive system optimized for panning and high friction applications from 20,000 sq ft up to 50,000 sq ft. The patented computer controller constantly monitors the engine speed and adjusts the hydraulic load at the same time. The power steering via joysticks enables accurate manoeuvring and virtually fatigue-free working. The patented hydraulic wheel kit makes it possible to change float pans or blades easily without the need of a crane or fork lift.

Features

- Industry leading torque
- Large display for enhanced diagnostics and operator feedback
- Easy to lift with forklift pockets
- Optimal operator performance and ergonomics
- Increased visibility and life
