- Hose available in red, blue, yellow, green, and beige at no additional charge.

VAULT READY DESCRIPTION: There are two primary ways to store coins in a self-serve environment; either inside the equipment in a coin box or in a vault that is installed beneath the meter to collect coins. Vaults can hold anywhere from \$700 in quarters for the 10-inch model up to \$1600 for the 18" (10", 14", and 18" vaults available for sale). Since most vaults are cemented or bricked in on all sides they are very difficult for thieves to break into. JE Adams provides the 2" threaded nipple and vault tube cover for most units and customers are required to supply concrete bases and tubing to direct money to the vault. Units can be lowered to meet ADA requirements.

JE Adams and SteamBrite Supply Now Offers An Affordable, Secure, and Easy to Use Credit Card Swiper on Vacuums & Air Machines

JE Adams has partnered with CryptoPay[®] Credit Card System and now you can add a credit card reader to JE Adams Vacuums and Air Machines.

Your cost \$350 per Swiper
Your cost \$350 per Coordinator

Don't throw money away just to accept credit cards

o Other credit card systems charge you \$9.95 per month per swiper plus your processing fees. That can add up quickly!! See the example below:

- * The average number of vacuums per site is 4
- * \$9.95 per month x per vacuum (4) = \$39.80
- * \$39.80 per month x 12 months = \$477.60
- * \$477.60 per year x 5 years = \$2,388.00 in base charge fees!

Competitor Credit Card System equipment \$550 * 4 = \$2200 to start

JE Adams \$350 * 1 = \$350
Coordinator \$350 * 4 = \$1400
Swipers Total \$1750

You just need an internet connection to the office where you would run an internet connection to the coordinator (\$350). Then you would mount the credit card swipe (\$350 each) on the vacuum and its picks up the signal from the coordinator. No need to run internet to each vacuum.

Secure Radio Mesh Wireless System (non-WiFi)

- o No PC or special software is required, no running cables to each credit card swiper. All you need is an Internet connection
- o Only one CryptoPay Coordinator needed per site supporting up to 50 CryptoPay credit card swipers
- o Credit Card Data is fully encrypted from the point of credit card swipe contact to the credit card processor. Card holder data is never "In the Clear"
- · Wholesale Credit Card Processing Rates
- o Offering First Data and Heartland Payments Systems

>

o JE Adams and SteamBrite Supply do not receive any portion of your swipe fees to keep your costs low

Retro kits available for existing equipment
