Model Number: 20250610

Swimming Pool Market Umbrella Holder 1.5 Inch Inside Diameter X 1.5 Inch Male Pipe Thread PVC 20250610

Manufacturer: Clean Storm

Swimming Pool Market Umbrella Holder 1.5 Inch Inside Diameter X 1.5 Inch Male Pipe Thread PVC 20250610

Convert swimming pool patio perimeter fence receivers to market umbrella holders.
This webpage is for the PVC holder only and does not include the market umbrella.
Note that 1.5" Female Pipe patio connection is not 1.5" opening with a ruler but closer to 1-7/8" across the opening (ID.)
Allows you to place a 1-1/2 inch Outside Diameter (OD) market umbrella pole into the PVC receiver.
Item can support a 11 foot diameter market umbrella.
All sales are final on this item. We have to bore out the inside of this plastic part to make it 1-1/2" Inside Diameter (ID) to accept the umbrella.
Can be used as a permanent installation or temporary installation.
For a more permanent installation add silicone glue in the gap between the PVC holder and the umbrella pipe.
Please measure the OD of the market umbrella pipe and the ID of the patio receiver before ordering.
Less chance to stub your toes on this type of holder.
