Model Number: 063467731627

Clean Storm 063467731627, 48-Inch Fiberglass Push Rod

Manufacturer: Clean Storm

Clean Storm 063467731627, 48-Inch Fiberglass Push Rod

Description

Enhance your commercial and industrial cleaning setup with the Clean Storm 48-Inch Fiberglass Push Rod, engineered for maximum rigidity and reliable performance. Featuring a solid fiberglass design built strictly for mechanical push applications, this rod does not allow water or air to pass through. It is equipped with a 1/4-inch male pipe end on one side and a 1/4-inch female pipe end on the other, making it easy to connect and extend your reach. Specifically designed for use with TurboBrite square and rectangular brushes, this component is sold individually to fit your exact operational requirements.

Features

- 48-inch (4 ft) length provides optimal reach and control for commercial cleaning equipment
- 1/4-inch male pipe end on one side and 1/4-inch female pipe end on the other for secure linking
- Solid fiberglass construction offers exceptional strength with no internal water or air pass-through
- Tailored for compatibility with TurboBrite square and rectangular brushes
- Sold individually to allow custom configuration of your cleaning tools
