Clean Storm AH53, Brass Ball Valve, 1/4in FIP x 1/4in FIP, 600 PSI

Model Number: AH53

Clean Storm AH53, Brass Ball Valve, 1/4in FIP x 1/4in FIP, 600 PSI

Manufacturer: Clean Storm

Clean Storm AH53, Brass Ball Valve, 1/4in FIP x 1/4in FIP, 600 PSI

Description

The Clean Storm AH53 Brass Ball Valve is a heavy-duty, high-performance shut-off valve designed for reliable control of water and air flow. Featuring 1/4" Female Pipe Thread (FIP) connections on both ends, this versatile brass ball valve is built to handle working pressures up to 600 PSI. Constructed with an all-metal handle for smooth operation and long-lasting durability, it is an ideal replacement part for pressure washing, cleaning equipment, and industrial fluid or pneumatic systems.

Features

- **High Pressure Rating:** Safely handles up to 600 PSI of water or air pressure.
- **Durable Brass Construction:** High-grade brass body offers excellent corrosion resistance and extended service life.
- **Standard Connections:** Dual 1/4" FIP (Female Pipe Thread) x 1/4" FIP ports for easy installation into standard setups.
- **All-Metal Handle:** Sturdy metal lever ensures reliable shut-off control and resistance to wear and tear.
- **Versatile Application:** Perfect for high-pressure washing systems, carpet cleaning equipment, and general air/water fluid management.

Specifications

Brand
Clean Storm

Part Number / MPN
AH53

Inlet Connection
1/4" FIP (Female Pipe Thread)

Outlet Connection
1/4" FIP (Female Pipe Thread)

> Clean Storm AH53, Brass Ball Valve, 1/4in FIP x 1/4in FIP, 600 PSI

Clean Storm AH53, Brass Ball Valve, 1/4in FIP x 1/4in FIP, 600 PSI

Max Pressure Rating
600 PSI (Water or Air)

Body Material
Brass

Handle Type
All-Metal Lever Handle
