Manufacturer: Steambrite MFG

SteamBrite 20250829 Groomer Carpet Rake Complete Rake and Telescoping Handle Stick

Descsription:
The MOST Effective Carpet Pile Conditioner, 18 inches wide. A standard for every carpet professional. The most efficient carpet pile conditioner.

Lifts crushed pile from heavy traffic areas
Releases trapped, ground-in dirt between tufting and fibers
Separates flattened pile after wet cleaning
Restores carpet buoyancy
Allows thorough vacuuming
Permits better penetration of chemical solutions
Aerates wet carpet to allow quicker drying.
Used by all carpet cleaners to scrub in carpet protectors that are appied after cleaning.
Carpet Rake Groomer is designed for use on twisted filament carpet pile. Grandi Brush is for straight filament carpet pile.

This groomer is a must for every professional carpet cleaner! The Carpet Rake Groomer is designed to:

- Simultaneously loosen and lift deeply embedded soil particles and pet hair for efficient extraction and cleaning
- Restructure the original design of the carpet
- Restore the resilient effect
- Finish grooming the cleaned carpeting to render the "Like New" appearance
- Better carpet appearance to satisfy and please the customer

How To Use
Before Vacuuming Or Cleaning.

Using a "push-pull" motion will allow the specially designed nylon tines to reach the base of the carpet tufts, separating and freeing the individual fibers of dirt, pet hair, etc. that vacuuming cannot get. Most commonly used to scrub in you carpet cleaning traffic lane prespray.

After Vacuuming Or Cleaning

Steambrite Supply

Parts & Accessories > Brushes, Bonnets, Pad Drivers, & Clutches > Carpet Brushes > SteamBrite 20250829 Groomer Carpet Rake Complete Rake and Telescoping Handle Stick

SteamBrite 20250829 Groomer Carpet Rake Complete Rake and Telescoping Handle Stick

Using a "push-pull" motion will lift the carpet pile, restructuring the original design. This motion will also give the carpet a finished grooming to render a "like new" appearance. On dense and deep pile carpeting it is best to finish by a "pulling" motion only. Most commonly used to evenly distribute your post applied carpet protection product.

Example: Vacuum > Prespray cleaner > Groom with Carpet Rake > Rinse/Extractor > Apply Fabric Protection > Groom with The Carpet Rake > Collect $$$
