Manufacturer: Husqvarna Equipment

Husqvarna 970692502, Blastrac 2-48DS, Shot Blaster for Surface Preparation, 460V, 60 Hz, 70.5hp, 970 69 25-02, GTIN 805544323949

Description

Blastrac 2-48DS is the largest walk-behind shotblasting machine in our range. With two powerful blast motors, it is ideal for large heavy duty work and can be used on different surfaces like concrete, stone, asphalt and steel. Blastrac 2-48DS is equipped with its own height adjusting system for easy transportation. It can be used for floor preparation, renovation, maintenance and decorative purposes. It is also ideal for grip improvements.

Features

- The shot blasting machine has to be connected to a Husqvarna industrial dust collector to create a closed circuit. This means that you are able to work virtually dust free, creating a better work environment.
- This machine is equipped with a driver motor for ease of use. It also improves productivity and promotes a more even and consistent blast pattern and surface profile.
- With its two powerful blast motors, it creates a consistent blast pattern and surface profile.
- This self-propelled shot blasting machine features drive controls on the steering handle.
- Reusing the abrasives makes this a resource-smart solution. Also no water is used and wasted and no chemicals are used during the blasting process.
