Description
The Clean Storm SS1404-04-06 is a premium-grade 316 stainless steel non-live pipe swivel adapter designed for high-pressure hydraulic, pneumatic, and industrial fluid transfer systems. Built for environments requiring superior corrosion resistance, this heavy-duty adapter features a 1/4" Male NPTF connection on one end and a 3/8" Female NPSM swivel connection on the other.
Please Note: This is a non-live swivel fitting. The swivel action allows for effortless alignment during assembly and installation without twisting hoses. Once fully tightened, the swivel locks in place and does not rotate under system pressure. To disassemble or adjust, the fitting can easily be broken loose again.

Features

- Corrosion-Resistant Construction: Fabricated from high-grade 316 stainless steel for excellent resistance to harsh chemicals, moisture, and extreme environments.
- High-Pressure & High-Temp Rated: Rated for pressures up to 5,000 PSI and operating temperatures reaching up to 1,000°F.
- Non-Live Swivel Mechanism: Swivels freely for stress-free installation and thread alignment, then secures tight under pressure to prevent seal fatigue.
- Versatile Application: Ideal for high-pressure washers, hydraulic circuits, chemical feed lines, and industrial fluid management.
- Bulk Savings: Eligible for our Buy More $ave More volume tier pricing.
