Description

Elite-Polish™ ET D is the ideal tool for transitioning seamlessly from metal to resin tools. This innovative solution effectively reduces scratches and kickstarts the polishing process, particularly on surfaces that are too rough to begin directly with polishing tools. With its rigid and solid body, our tool offers exceptional durability, making it suitable for a wide range of applications. It excels, especially in scenarios where tool lifespan is a significant concern. The EZchange™ attachment system simplifies and accelerates the process of changing tools, providing convenience and efficiency.

Features

- Optimised for dry polishing concrete floors.
- The EZchange™ system allows for quick and hassle-free diamond tool changes without the need for multiple diamond holder discs or time-consuming screw-on systems. Compatible with machines from a variety manufacturers.
- This engineered system ensures an optimal balance between tool wear and grinding or polishing speed, helping you achieve the desired result in a minimal amount of time.
- Helps you reach the desired level of performance faster, saving valuable time.
- Optimised for dry polishing cement-based terrazzo floors.
