## Description

Diamond impregnated pads, ideal for enhancing glossiness and facilitating maintenance. Our comprehensive range offers high-performance solutions that seamlessly integrate with scrubbing machines and high-speed burnishers. Thanks to their design, these pads feature a flexible backing, allowing them to effortlessly adapt to any floor irregularities. Elite-Polish® EB/EM D/W is available in nine different dimensions, catering for a wide variety of requirements and surfaces. EZchange® attachment system streamlines and expedites the tool-changing process.

## Features

- Optimised for dry polishing concrete floors.
- The tool's flexible backing is designed for managing low spots on irregular floors.
- The EZchange® system allows for quick and hassle-free diamond tool changes without the need for multiple diamond holder discs or time-consuming screw-on systems. Compatible with machines from a variety of manufacturers.
- This engineered system ensures an optimal balance between tool wear and grinding or polishing speed, helping you achieve the desired result in a minimal amount of time.
- A wide range of available grit sizes allows you to achieve a variety of results across different applications.
- Optimised for dry polishing cement-based terrazzo floors.
