RHG 20007 Tucker Bulk Replacement One Cubic Foot of Virgin DI Resin

Description

One Full Cubic foot of virgin DI Resin from Tucker®. Great for refilling the various refillable filter cartridges on the market today.
Most sell resin in bags that are not easily resealable, which often causes the resin to go bad prematurely. This DI resin is sold in a resealable, reusable bucket to ensure that it lasts as long as possible while being stored. The shelf life of this resin is typically 6 months depending on storage conditions.
Note: Water purified by DI resin is non-potable. Do not drink DI water.

Specs:
Dimensions: 10" x 24" x18"
Weight: 42 lbs
