RHG T-Cart-RIVAL-V2 Tucker Stainless Steel 4 Stage RO/DI System

Model Number: T-Cart-RIVAL-V2

RHG T-Cart-RIVAL-V2 Tucker Stainless Steel 4 Stage RO/DI System

Manufacturer: RHG Reach Higher Ground

RIVAL-V2 by Tucker® Stainless Steel 4 Stage RO/DI System

Description

All new for 2025! After 4,000 units we have upgraded the system - AGAIN!
RIVAL-V2 by Tucker® Stainless Steel 4-Stage RO/DI System - MADE IN USA
The RIVAL Cart is a 4-stage Pure Water system that comes on a powder coated lightweight steel frame made for years of abuse. The new Tucker® combination sediment/carbon pre-filter makes this a 4-stage filtration system! Large flat free tires help you navigate all terrains.

New features on the Rival-V2 include:
DI Saver System: Avoid TDS creep and lower your cost per gallon instantly with the Tucker® DI Saver System. Simply turn the 3 way valve to the RO position and you will bypass your DI filter. This is great for anyone wanting RO only water, those looking to test RO production simply, and those looking to bleed off high TDS water before sending it to the DI filter - saving you big money on your DI resin. See video below for details!
New 40" Max-Flow membrane w/Variable Flow Technology. This new membrane provides the highest flow rates regardless of your incoming pressure. From 40 to 120 PSI inlet pressure you will see the highest flow. So whether you're using a booster pump or not you will have optimal flow at your pressure. This means no more guessing which RO is best for you! See video below for details.
System consists of:

(1) Carbon Pre-filter for removal of harsh chlorine and sediment
(1) Tucker® ECO Flow Series reverse osmosis membrane
(1) Refillable DI Filter for an ultra pure final polish of your pure water

Wrenches for opening filter housings and TDS meter for checking the water quality are included.
This system as it sits is ideal for cleaning up to approximately 30' on good line pressure. Ideal to lay the system down during usage. OVERALL this is an incredible value and is meant to perform much like other stainless steel RO/DI systems on the market today.

Any Tucker® system you buy will come with your first set of replacement sediment, carbon, and DI filters included at no extra cost! No more worrying about not having an extra filter on hand when you need it.
