RHG 10041-SS Tucker 3-Stage Water Powered H2Pro RO/DI System

Model Number: 10041-SS

RHG 10041-SS Tucker 3-Stage Water Powered H2Pro RO/DI System

Manufacturer: RHG Reach Higher Ground

Tucker 3-Stage Water Powered H2Pro RO/DI System

If you are considering a purification system that has lower cost of maintenance than other systems on the market and much longer intervals between filter changes well the H2pro is an excellent choice.
The DI on this system has a capacity over 3 times that on a Tucker® Rival or comparable RO/DI system. The Carbon on this system has a capacity 15 times higher than that of a common carbon filter. These Tucker® made in USA filters are just better and last longer than off the shelf filters on other systems. Same yourself big money on filter costs.
These systems are work horses from day one, proven by over 10 years of sales and reliability in the field. Comes with the built in Tucker® DI saver option that allows you to bypass the DI filter and work with pure RO water in various application, lowering your cost of maintenance considerably.

Features include:

• 1 GPM on average source pressure
• Tucker® DI SAVER MODE (RO Only) and RO/DI modes for different cleaning applications.
• 30" carbon pre-filter for long filter life
• 40" Eco Flow Tucker® RO membranes for high water production
• 30" DI post-filter for final polish of the RO water
• No flat wheels
• Stainless steel housings
• 10 year warranty
• 1st Carbon and DI filter change included free of charge.

Optional:
Replacement Filters for this unit are as follows:

20066-C - 4 x 30" Filter Cartridge - Carbon Pre-Filter
20013-RO-VF - 4 x 40" Max-Flow Reverse Osmosis Membrane
20066-DI - 4 x 30" Filter Cartridge - DI Resin Post-Filter
