RHG T-SKID-ULT-MAV Tucker Ultimate Residential Skid - 5 Stage RO/DI Maverick System - Designed for Compact Pick Ups

Manufacturer: RHG Reach Higher Ground

Tucker Ultimate Residential Skid - 5 Stage Reverse Osmosis / Deionization Maverick System - Designed for Compact Pick Ups

Description

Introducing the Tucker® Ultimate residential Skid Designed for Compact Pick Ups.
A first of its kind all in one drop in skid designed specifically with the professional window cleaner in mind. Whether you're looking to upgrade your existing set up, get a new truck on the road, or simply start a business this is the best option for you. Its essentially a business in a box!
Made from aluminum and powder coated in the color of your choice. Designed to easily be forklifted in/out of your truck for storage. These skids are lightweight at only 600 pounds.
Features:
-Custom Tucker® 5 stage RO/DI system (capable of producing pure water at a high rate and on demand in the event you need to do so on the job site)
-50 gallon pure water holding tank (more than enough for the pro)
-5.3 GPM battery powered booster pump (the best 12 volt booster pumps on the market)
-On board inline TDS meter for monitoring RO water quality as well as DI water (check your water quality at the press of a button)
-1.4 GPM delivery pump with digital flow controller and long range remote control (easily control the water pressure, flow, and on/off at your brush with the press of a button)
-(1) Cox hose reel with 300' of Tucker® 3/8" pure water delivery hose (easily reach around the largest houses in the neighborhood)
-(1) Cox hose reel with 200' of Tucker® 5/8" feed hose (for those times you need to hook up and produce water on demand)
