Hydroforce 1750 Watts Nautilus Olympus Internal Portable Carpet Cleaning Extractor Heater 2672-0274 120 volts sku 207722

Model Number: 2672-0274

Hydroforce 1750 Watts Nautilus Olympus Internal Portable Carpet Cleaning Extractor Heater 2672-0274 120 volts sku 207722

Manufacturer: HydroForce

Hydroforce Nautilus Olympus 1750 Watts Internal Portable Carpet Cleaning Extractor Heater 2672-0274 120 volts sku 207722

Used in Kleenrite Edge Extractors, Bridgepoint Nautilus, CFR, Powrflite Heated Portable carpet cleaning machines,...
Keep you carpet cleaning machine working like new with this OEM replacement part.
Can also be used to upgrade you current design to improve carpet cleaning, auto detail, and upholstery cleaning machine performance.
Heats water up to 200 degrees F. in two minutes (cleaning wand not in use.)
Installs between your water pump and outbound water QD
Easy to Install Bracket System with small footprint (vertical mounting required)
Safety Cover
Easy Access to Thermostats
1/4" F Ports
Cooler water should go into the heater at the top and hotter water should leave the bottom of the heater.
1750W electric heat exchanger with new holes on its plate.
1750 Watt Element will operate on a 15 amp breaker
10 lbs

Original design was 3 wires for a single 1750 watt heater. New design is to wire the heater has two separate 875 watt heater rods. This means you will have 2 black wires that control 1 side of the heater and then 2 white wires that control the other side of the heater, and 2 red wires that control the phase location 240 volt light. If you

Hydroforce 1750 Watts Nautilus Olympus Internal Portable Carpet Cleaning Extractor Heater 2672-0274 120 volts sku 207722

want to run half the heater on one power cord and the other half on the other power cord you now can do this. If you want to operate both heaters on 1 power cord, join the 1 black wire with 1 white wire together, join the remaining white and black wires together. This is quite backwards than other heaters. With a multimeter and the heater not plugged into the machine, you can confirm continuity goes in one white wire and back out the other white wire. The continuity goes in one black wire and back out the other black wire. A set of white wires is for 875 watts of heat and the set of 2 black wires is the other 875 watts of heat.

Optional

Magnetic Clamp-On Water Softener Descaler for Truckmount & Portable Carpet Cleaning Machines 20260425

- Helps prevent scale buildup in pipes, coils, heaters, and carpet cleaning heat exchangers
- Reduces or eliminates routine monthly descaling in many applications
- Clamp-on installation — no cutting, plumbing, salt, chemicals, or cartridge replacement
- Maintenance-free design — no salt, resin, plastic pellets, filters, or media to flush
- Improves heat transfer efficiency by helping keep mineral buildup off heater surfaces
- May improve water flow / GPM by helping reduce mineral restriction over time
- Only 4 inches long for installation in tight areas on portable and truckmount equipment
- Longer Equipment lifespan
