Turboforce CR-200 Cobra Brush Lip Replacement for the AR50 Wand

Model Number: CR-200

Turboforce CR-200 Cobra Brush Lip Replacement for the AR50 Wand

Manufacturer: Turbo Force

Replacement brush lip for the TurboForce Cobra AR50 hand held tile cleaning wand as an accessory to many truckmounted carpet cleaning machines.

Note in 2025 the brush lip with an Aluminum holder was replaced by the above plastic holder.
The Aluminum holder style is sold out and discontinued.
Note this new plastic holder fits up inside of the vacuum slot.
The factory has not provided any instructions on installation.
This means it might have to be glued in or even you might have to gently heat the tool body with a low setting on a heat gun, slide the brush lip inside of the body and allow to cool and contract to a tight fit.
All sales are final on this item. No returns accept.
This means if you cannot make this work, you have to figure out how to make it work on your own.
We are not going to pick up this brush lip and provide a refund.
We did confirm that the factory believes this will fit all old and new designed tool bodies.
Two units shown in above photo to display each side of the item but, Sold Each
