Husqvarna 967702003, W 70 Vacuum Dust Slurry, NO Automatic Pump Out, 120V, 118cfm, GTIN 805544427074

Manufacturer: Husqvarna Equipment

Husqvarna 967702003, W 70 Vacuum Dust Slurry, NO Automatic Pump Out, 120V, 118cfm, GTIN 805544427074

Description

Wâ€™70 is a durable and efficient industrial wet and slurry vacuum designed for tough jobs. It's also known for its long, trouble-free service life. This is achieved by using high quality stainless steel components and a special combination of filter and float that protects the motor. Where most wet vacs can only handle water, Wâ€™70 can deal with liquids such as concrete slurry, oils and machining coolants. Recommended for concrete drilling, sawing, grinding and wall/wire sawing. Emptying is carried out via a large bottom valve for simple cleaning. The non-marking wheels are puncture-free and lock at the front.

Features

- Stainless steel container, crush-proof hose, cast aluminium swivel hose lock, galvanized steel dolly and steel clamps for tight air seal are details allowing for a long service life.
- The patented filter/float system provides maximum airflow and reliable wet shut-off in case of overfill.
- The welded frame enables easy transportation by resting the machine on the frame.
- The versatile W-Line can deal with liquids such as concrete slurry, oils and machining coolants.
