Model Number: 529681001

Husqvarna 529681001, Dust Bag, Super-Strong Recycled, 4x20M 53 microns, GTIN 805544564779

Manufacturer: Husqvarna Equipment

Husqvarna 529681001 Continuous Dust Bag System – 4 Pack, 4 x 20M, 53 Micron (OEM)

Genuine Husqvarna OEM Part

Part Number: 529681001

GTIN: 805544564779

Configuration: 4 Rolls x 20 meters each

Material Thickness: 53 micron (Super-Strong Recycled)

This Husqvarna 529681001 continuous dust bag system is designed for use with Husqvarna dust extractors and pre-separators. The system allows operators to create sealed disposal bags as needed, improving jobsite cleanliness and reducing airborne dust exposure during disposal.

Key Features

- Continuous liner system: Pull down, seal, cut, and continue working without opening the collection system.
- Dust-controlled disposal: Helps contain fine concrete dust, silica dust, and construction debris.
- Heavy-duty recycled material: 53 micron thickness provides strength for demanding grinding and surface prep applications.
- 4-roll contractor pack: Ideal for high-volume users and daily jobsite operation.
- OEM Husqvarna quality: Manufactured to match original equipment specifications and performance.

Specifications

Manufacturer
Husqvarna

Part Number
529681001

GTIN
805544564779

Roll Quantity
4 rolls

Roll Length
20 meters (approx. 65 feet) each

>

Material Thickness
53 micron (Super-Strong)

Material Type
Recycled plastic liner

Application
Dust extractors, pre-separators, industrial vacuum systems

Compatible Equipment
Commonly used with Husqvarna dust extractors and pre-separators including:

- DE 110, DE 120, DE 130 series
- S-Line dust extractors (S13, S26, S36)
- T-Line industrial dust systems
- C-Line pre-separators (C3000, C5500)

How It Works

The continuous bag system allows operators to pull down fresh liner material as debris collects. Once filled, the section is tied off, cut, and removed, leaving a fresh section ready for continued use. This reduces downtime and minimizes exposure to airborne dust.

Advantages Over Traditional Bags

- No need to open the vacuum tank during disposal
- Reduced dust exposure for operators
- Faster change-outs between jobs
- Flexible bag sizing based on debris volume

Ordering Notes

- This is a genuine OEM Husqvarna part sold by an authorized dealer.
- Always confirm compatibility with your specific machine before ordering.
- Photos are for reference only; packaging may vary.
- Specifications subject to change without notice.
