Hornet GP10238 50Amp Electrical Distribution box with NEMA 14-50P X 5 ft cord; breakers and multiple 5-15R outlets D185220050

Manufacturer: Century Wire and Cable

Hornet GP10238 50Amp Electrical Distribution box with NEMA 14-50P X 5 ft cord; breakers and multiple 5-15R outlets D185220050

The Hornet 50Amp Electrical Distribution box by Century Wire is a power distribution spider box designed for commercial and industrial use. It comes with NEMA 14-50P breakers and a 5 ft cord, providing a reliable and efficient electrical distribution system. This product is ideal for businesses and industrial settings that require a high level of power distribution capabilities, ensuring a stable and consistent power supply for various electrical devices and equipment. Plug into your generator to convert 240 volt power to more usable 120 volt outlets. Use in water damage situations to operate dehumidifiers off of the stove or oven outlet in the kitchen.
