Phoenix 4024879, Air Scrubber Carbon Potassium Filter, 0.5 lbs, Each only, No Case Description
The Phoenix 4024879 is a specialized 0.5 lb filter cartridge that combines activated carbon and potassium permanganate to provide superior adsorption of gases and odors. Designed for Phoenix air scrubbers, this replacement filter enhances odor removal performance during water damage restoration, mold remediation, and other professional cleanup applications.
Features

- Dual-media filtration with activated carbon and potassium permanganate
- Effectively adsorbs a wide range of gases, odors, and volatile organic compounds
- Compatible with Phoenix air scrubber systems
- Sold individually for flexible replacement scheduling
- 0.5 lb capacity for extended odor control

Compatibility
Part Number: 4024879
Compatible with Phoenix air scrubber systems
Replacement filter cartridge
