Phoenix 4031878, Disposable Carbon Filter, Case of 6, Restoration Equipment

Model Number: 4031878

Phoenix 4031878, Disposable Carbon Filter, Case of 6, Restoration Equipment

Manufacturer: Phoenix

Phoenix 4031878, Disposable Carbon Filter, Case of 6, Restoration Equipment
Description
The Phoenix 4031878 is a case of six disposable carbon filter pads designed for use in Phoenix air scrubbers. These carbon filters effectively adsorb odors and volatile organic compounds (VOCs) during water damage restoration and remediation projects, providing an economical solution for odor control in restorative drying applications.
Features
Case of 6 disposable carbon filter pads for extended use
Designed specifically for Phoenix air scrubbers
Effectively adsorbs odors and volatile organic compounds
Economical choice for odor control during restoration projects
Essential for maintaining optimal air quality during restorative drying
