Phoenix 4033895, Duct Kit 8in for Firebird Compact Heater
Description
The Phoenix 4033895 is an 8-inch duct kit designed specifically for the Phoenix Firebird Compact 20 portable heater. This essential accessory enables restoration professionals to direct heated air precisely where it’s needed most, improving heat distribution and drying efficiency in challenging spaces.
Features

- 8-inch diameter flexible duct for directing heated air to specific areas
- Custom-designed collar ensures secure attachment to Firebird Compact 20 heater
- Extends heating reach into crawl spaces and hard-to-access areas
- Improves heat distribution efficiency during structural drying operations
- Genuine Phoenix accessory ensures proper fitment and performance
