Phoenix 4042065, DryMAX Rotary Pump Kit, Replacement Condensate Pump

Model Number: 4042065

Phoenix 4042065, DryMAX Rotary Pump Kit, Replacement Condensate Pump

Manufacturer: Phoenix

Phoenix 4042065, DryMAX Rotary Pump Kit, Replacement Condensate Pump
Description
The Phoenix 4042065 is a replacement rotary pump kit engineered for Phoenix DryMAX dehumidifiers. This genuine OEM pump kit restores automatic condensate removal capability, enabling continuous unattended operation during water extraction and structural drying jobs. The complete kit includes the rotary pump, tubing, and all necessary fittings for quick installation.
Features

- Restores automatic condensate drainage for continuous operation
- Eliminates need for manual water removal and bucket emptying
- Enables unattended operation on overnight and multi-day jobs
- Complete kit with all components needed for installation
- Genuine Phoenix OEM part ensures proper fit and performance
