Phoenix 4026657, Motorized Impeller Fan, 588 CFM Replacement Part

Model Number: 4026657

Phoenix 4026657, Motorized Impeller Fan, 588 CFM Replacement Part

Manufacturer: Phoenix

Phoenix 4026657, Motorized Impeller Fan, 588 CFM Replacement Part
Description
This replacement motorized impeller fan delivers 588 CFM of airflow for selected Phoenix dehumidifiers and restoration equipment. It restores high-velocity airflow through the unit’s coil system, ensuring optimal drying performance and equipment efficiency.
Features

- Delivers 588 CFM airflow capacity
- Direct replacement for compatible Phoenix equipment
- Motorized impeller design for consistent performance
- Ensures proper airflow through dehumidifier coil
- Restores equipment to factory specifications

Compatibility
This motorized impeller fan is designed for use with select Phoenix dehumidifier models. Verify your equipment model number before ordering to ensure proper fit and function.
