Phoenix 4030074, AAM Service Kit, Motor, Cord, Hour Meter
Description
The Phoenix 4030074 is a comprehensive service kit designed for Phoenix AAM (Axial Air Mover) models. This complete refurbishment kit includes a replacement motor, power cord, and hour meter, providing all essential components needed to restore aging air movers to optimal performance and ensure continued safety compliance.
What’s Included

- Replacement Motor – Restores original airflow performance
- Power Cord – Ensures electrical safety and compliance
- Hour Meter – Enables equipment tracking and maintenance scheduling

Compatibility
Compatible with: Phoenix AAM (Axial Air Mover) models
Part Number: 4030074
Complete refurbishment kit for aging equipment
Applications
This service kit is ideal for restoration professionals who need to extend the service life of their Phoenix air movers. Regular refurbishment with genuine Phoenix parts ensures equipment continues to perform reliably while maintaining manufacturer specifications and safety standards.
