Phoenix 4036486, Heavy-Duty Power Cord with Lighted Ends, 20ft 24/3 SJTW 215V

Model Number: 4036486

Phoenix 4036486, Heavy-Duty Power Cord with Lighted Ends, 20ft 24/3 SJTW 215V

Manufacturer: Phoenix

Phoenix 4036486, Heavy-Duty Power Cord with Lighted Ends, 20ft 24/3 SJTW 215V
Description
The Phoenix 20-foot 24/3 SJTW power cord is a professional-grade extension cord rated for 215V applications. Designed for restoration professionals and contractors, this heavy-duty power cord features lighted ends that allow you to verify power status instantly, eliminating guesswork during equipment setup and troubleshooting.
Features

- 20-foot length provides flexibility for equipment positioning on job sites
- 24/3 SJTW construction with tough, abrasion-resistant jacket for durability
- Lighted male plug and female connector verify power at a glance
- Rated for 215V applications for high-voltage equipment compatibility
- Moisture-resistant jacket protects against water damage and environmental exposure
- Professional-grade construction built for demanding restoration and remediation work

Typical Applications
Water damage restoration equipment power supply
Commercial dehumidifier and air mover connections
Construction and remediation job site power distribution
High-voltage restoration equipment operation
