J.E. Adams 32012 Base - 12ft Vacuum Island Base Only
BUILT TO ORDER! 30 DAYS BEFORE IT SHIPS!
If you are buying from this webpage you are just buying the 12' Island Base!
Description
J.E. Adams unique island design will quickly draw attention to your site. Islands are made entirely out of stainless steel and are manufactured to be bolted to concrete instead of requiring concrete to be poured internally. The modular design allows for replacement of individual sections should one be damaged. The islands & canopies can be sold as a set or individually to accomodate your layout.
Features

- Total stainless steel construction including interior frame and vacuum platforms provide years of use while still looking like new
- Unique modular construction consists of three separate pieces (double vacuum island bases) and two separate pieces (single vacuum island base)
- Modular construction results in reduced freight costs; easily assembles without a forklift in about two hours
- Tepee mat holder with (4) mat clamps are permanently attached to the center module which cuts down on potential replacement parts
- Modular design allows for replacement of any section or part if damaged at your location (unlike one-piece designed islands requiring total replacement)
- Trash service door is secured with (2) Medeco cam locks and trash can be deposited from four directions into container
- Slide-out trash removal is readily accessible by door (instead of heavy and messy lifting)
