Oregon 20-020 Magnum Gatorline Supertwist Heavy Duty Trimmer Line .095-Inch by 282-Foot 1lb. GTIN 00032488200207

Product Description

Magnum Gatorline Trimmer Line is ideal for professionals who need long-lasting, powerful tools to get the job done right. It quickly and easily cuts through low grass and grass-like weeds yet is durable enough to tackle sizable brush without breaking. This weed wacker string is less likely to bond together in the trimmer head due to its weld-resistant outer layer.
.095" diameter trimmer line is an ideal fit for many string trimmer models, including but not limited to:

Echo SRM 235 and SRM 230
Stihl FS 56 RC and FS55 R
Husqvarna 128LD
DeWalt DCST970X1
Ryobi RY253SS
Troy Bilt TB 22

Magnum Gatorline is compatible with most trimmer head systems including:

Fixed-line
Semi-automatic bump-feed heads
Automatic bump-feed heads

Additionally, it fits most corded, cordless, gas, electric, and battery-powered curved and straight shaft string trimmers.
Its square-shaped profile delivers aggressive cutting power for cleaner, more efficient results. The high-strength inner core reduces breakage, meaning less downtime and fewer line replacements. Designed for heavy-duty performance and professional-grade results, Magnum Gatorline helps maximize productivity in every job.
Note: Check your string trimmer manual for recommendations and to ensure that larger lines will work with your trimmer.

From the Manufacturer
Try our Super-Twist Magnum Gatorline. With a .095-inch gauge, this long lasting, dual polymer trimmer line comes on a 1-pound donut. It includes all the features of Magnum Gatorline but with a twist. This new shape not only reduces noise, but it also improves cutting efficiency. Furthermore, it incorporates the high strength inner core and weld resistant outer layer.
