All Sales Final. Full Factory Parts Warranty, but not returnable.

Wire Transfer Payment Only.

#### Description

DXR 315 is a powerful remote-controlled demolition robot with a telescopic arm, extending the reach for a flexible set-up. Despite its low weight and compactness it delivers a power of 27 kW, making it ideal for efficient demolition in tough environments. The outriggers are individually controlled and combined with a large footprint provides superior stability which enables high workload. Equipped with a superior remote control for safer operation and easy maneuverability. DXR 315 is a versatile machine for both the construction and process industry. Combine it with a variety of tools like hammers or our compact and versatile crushers and steel shearer. For the toughest applications we recommend our additional feature packages. For DXR 315 we offer extended hydraulic function and cylinder protection package, enhanced cooling and heat protection. This enables you to work with the machine in high ambient temperatures and with the tool in a high radiation heat. The packages can be ordered as accessories or installed direct from factory.

#### Features

- Increased performance
- Safer operation
- Superior remote control
- Live operating surveillance
- Superb power-to-weight ratio
- Hydraulic feature P1 installed from factory
- Fits through all normal doorways
- Ergonomic shoulder hook
- 360 degrees rotatable arm
- Compact design and low weight
- Precise positioning
- Superior stability
- Stable arm with low maintenance

>

- Comfortable operation
- Flexible set-up of individual parameters
- High work efficiency
- Easy transportation
- Easy access for servicing
- Castered baseplate in one piece
- Superb illumination
- Automatic greasing of the breaker
