RHG 80005-Meter Tucker Handheld TDS Meter

Description

This digital handheld TDS meter measures not only the mineral content in your water, but also the water temperature.
Handy for checking the purity of your water system to ensure spot free results. The temp reading is handy when you're trying to troubleshoot RO membrane flow issues. RO Membranes will produce far less water when water temp is low.
Watch this video for information about how to use your TDS meter!
