3/4" Brass garden hose outlet.

Tucker® Water Fed Pole - Tucker-40
The Tucker® water fed pole is an incredible tool for window cleaners everywhere. Tucker® is the oldest name in the industry, delivering the highest quality components with unique features that simplify your day. Made right here in the USA. Each of our standard line of carbon fiber, high modulus carbon fiber, and hybrid water fed poles comes with a GLIDE water fed brush, 100' of pole tubing, male and female quick connects, and our incredible reach-around gooseneck.

If you're looking for a water fed pole that will reach 3-story commercial windows, this is the pole that will make your working life easier. This economy line window cleaning pole has minimal bend, earning its rigidity from the high-quality carbon fiber that gives it strength while maintaining an extreme light weight.

This pole ranges from just under 7 feet when fully collapsed up to 36 feet when expanded to its full length. The variable height allows you to clean ground windows up to 3-story buildings. With a Tucker® brand water fed brush attached, the entire pole only weighs 6 pounds.

All Tucker® brand purification systems, pole sections, and clamps come with a 2 year warranty and are assembled in the US.
