Description
A 20.5 HP, 674cc V-Twin horizontal shaft gas engine typically used in heavy-duty commercial equipment like welders, tractors, and generators. This specific configuration features a 1.437" x 4.46" crankshaft, electric start, and a 15-amp charging system. This engine is designed for "zero downtime" commercial applications, featuring hydraulic valve lifters that eliminate the need for valve adjustments.
Features

- High-efficiency, low profile air filter provides protection from debris and ensures longer service intervals
- High performance spark plugs
