Model Number: AC517

Used AC517 DriStorm 12 Inch Ventilation Ducting with Storage Bag-A-Duct 25Ft Hose 300mm All Sales Final

Manufacturer: Clean Storm

Used DriStorm AC517 12" x 25' Ventilation Ducting with Attached Storage Bag

Part Number: AC517

Size: 12 inch diameter / 300mm x 25 ft long

Condition: Used — All Sales Final

Used 12 Inch Flexible Ventilation Duct for Air Movers, Drying, Exhaust & Negative Pressure

This used DriStorm AC517 ventilation ducting is a 12 inch by 25 ft collapsible duct hose with an attached storage bag. It is designed for moving large volumes of air in restoration, water damage drying, mold remediation, abatement, crawl spaces, containment areas, and general jobsite ventilation.

The ducting can be used with compatible axial fans, vortex-style air movers, centrifugal air movers, air scrubbers, and negative air machines where a 12 inch duct connection is required.

Important Used Item Notice

Used / Clearance Item — All Sales Final

This item is used and may show dirt, scuffs, small holes, wear, or cosmetic damage from previous use and storage. The ducting is still usable for ventilation, drying, exhaust, or temporary air movement applications. Because this is a used clearance item, it is sold as-is with no returns, refunds, exchanges, or warranty.

Features

- 12 inch diameter / 300mm flexible ventilation duct
- 25 ft long collapsible duct hose
- Attached heavy-duty storage bag for transport and storage
- Spring steel wire helix helps resist collapse under airflow
- PVC-coated polyester fabric construction
- Yellow jobsite visibility
- Can be used for positive or negative pressure air movement
- Useful for drying, restoration, remediation, abatement, crawl spaces, and exhaust applications
- Can help exhaust damp air out of a mitigation job
- Multiple ducts may be connected together when the job requires extra reach

Common Applications

- Water damage restoration
- Structural drying
- Temporary jobsite ventilation
- Mold remediation containment
- Negative air exhaust
- Positive pressure air movement
- Crawl space ventilation
- Air mover or axial fan ducting

>

- Moist air exhaust from drying jobs

Specifications

Brand
DriStorm

Buyer Verification Before Ordering

- Confirm your fan, air mover, or air scrubber accepts 12 inch ducting.
- Confirm used condition is acceptable for your application.
- Expect cosmetic wear, dirt, scuffs, and possible small holes.
- This is not recommended where new, sealed, sanitary, or certified ducting is required.

FAQ

Is this ducting new?

No. This is a used clearance item and is sold as-is.

Does it include the storage bag?

Yes. This listing includes the attached storage bag.

Can this be used for drying and restoration jobs?

Yes. It is commonly used for water damage restoration, ventilation, negative pressure, positive pressure, and exhaust applications.

Will it fit my fan?

It is designed for 12 inch / 300mm duct connections. Measure your equipment outlet before ordering.

Can it be returned?

No. This used clearance item is sold all sales final with no returns, refunds, exchanges, or warranty.

Sales Final Notice

Used item. All sales final. Photos are for reference. Condition may vary from normal jobsite use and storage. Buyer is responsible for verifying fitment and acceptability before purchase.

DriStorm Storage bag & 12" X 25 ft Ducting AC517 300mm All Sales Final Description

DriStorm 12" X 25 ft ducting with attached storage bag. Ventilate difficult spaces. Includes 25 feet of collapsible 12-inch ducting with attach stage bag. Connect one or more sections of ducting to the Vortex Axial Fan for powerful ventilation. The Yellow Ducting is a great tool for use in the Restoration Industry, Mold Remediation, or Abatement. Fits tightly to the snout of any centrifugal air mover to achieve positive or negative pressure or can be used to exhaust moist air out of a mitigation job. Comes with heavy duty bag.
