Transfer Flow 0400117100 Auxiliary Fuel Tank In Cab LCD Fuel Level Monitor Display

Manufacturer: Transfer Flow Inc

Transfer Flow 0400117100 Auxiliary Fuel Tank In Cab LCD Fuel Level Monitor Display

Fuel Level Monitor LCD

If you prefer not to use our TRAX 4™ app with your auxiliary tank but still want to know how much fuel you have, Transfer Flow offers an in-cab fuel level monitor LCD. The LCD shows the fuel level of the auxiliary tank with an easy-to-read bar graph that decreases when fuel is transferred to the pickup's main fuel tank. This item is optional and is sold separately.
