Husqvarna Top 5 Pack 50Amp 240Volt 1Phase Breakers for 6KW Grinders Including PG6 Covers
95% of Panels Bundle 20260401

Manufacturer: Clean Storm

Bundle #20260401 – 50 Amp 240V Breaker Kit (HOM250CP QO250CP
THQL2150 BR250 Q250) for Husqvarna PG6 Grinder – Covers 95% Panels

Contractor-grade 50 Amp 240V single-phase breaker bundle designed for use with Husqvarna PG6 and other 6kW grinders. This kit includes the 5 most common breaker types used in U.S. electrical panels, covering approximately 95% of field installations. Eliminates jobsite delays, ensures compatibility on first install, and reduces downtime by providing the correct breaker regardless of panel brand encountered. Ideal for contractors, rental fleets, and maintenance professionals requiring reliable, code-compliant power setup.

Includes: Square D Homeline (HOM250CP), Square D QO (QO250CP), GE Q-Line (THQL2150), Eaton BR (BR250), Siemens QP (Q250).

Purchasing this breaker bundle alongside your Husqvarna PG 6 grinder ensures you're fully prepared for installation on virtually any 240V single-phase job site without delays or compatibility issues. Instead of making multiple trips or guessing which panel type is on-site, this bundle provides the most commonly used breaker types in the U.S., helping electricians and contractors get up and running immediately. It reduces downtime, avoids costly project interruptions, and ensures you have the correct, code-compliant breaker on hand regardless of the panel brand encountered in the field.

Bundle Includes:

- Square D Homeline 50 Amp 2-Pole Breaker (HOM250CP)
- Square D QO 50 Amp 2-Pole Breaker (QO250CP)
- GE Q-Line 50 Amp 2-Pole Breaker (THQL2150)
- Eaton BR Series 50 Amp 2-Pole Breaker (BR250)
- Siemens Type QP 50 Amp 2-Pole Breaker (Q250)
