Description

Maintain a clean facility with this Nilfisk industrial vacuum. This vacuum offers a high performance to effectively pick up both wet and dry debris. Its single-phase, dual bypass motors produce a maximum airflow of 176 CFM and a waterlift of 83 3/16". They are independently controlled with individual switches. This unit emits only 74 dBA for quiet, non-disruptive use. Its large 9.8-gallon collection tank is easy to remove and empty. It comes with a manometer to measure the pressure and a vacuum gauge on the motor head to monitor its performance.

This vacuum includes an L-class star filter and a HEPA filter to collect 99.97% of particulates at 0.3 microns or larger. Its top-mounted, ergonomic manual filter shaker prevents clogging. This compact vacuum is easy to store and transport between jobsites. Its large chassis has wheels with brakes and a handle for enhanced maneuverability. It also includes onboard tool storage to easily store and access your vacuum accessories (sold separately). It requires a 120V electrical connection for operation.
