Malish NPSP, Riser for Rotary and Disc Brush, Plastic, 6.75 OD Hole Diameter 5 inches 0.375 inches thick, GTIN: 6-15129-88094-7

Description

Malish manufactures plastic risers 3/8 inches. This allows for the use of a larger pad driver and pad or brush. Adding additional space between the housing of the unit and the pad driver without hitting the unit housing allows you to get closer to walls and edges. Risers allow you to use a variety of pad driver sizes, pads, and even brushes on your existing floor machine.
