Solar Panel Triple spinning brushes with 10 Feet of Lance Extensions 20260430 Pressure Washing Attachment

Model Number: 20260430

Solar Panel Triple spinning brushes with 10 Feet of Lance Extensions 20260430 Pressure Washing Attachment

Manufacturer: Clean Storm

Solar Panel Triple Spinning Brush Pressure Washing Attachment with 10 Ft Lance Extension Kit
Solar panel triple spinning brush pressure washing attachment with three rotating nylon brushes, brass 4-way cross, adjustable high-pressure toggle swivel, stainless male quick-connect plug, and two 5 ft stainless lance extensions for 10 ft total added reach. Designed for solar panel, RV panel, glass, and smooth surface cleaning. The Steam-Brite 20260430 Solar Panel Triple Spinning Brush Attachment is built for faster, more even solar panel cleaning using three rotating nylon brush heads connected through a 1/4 in. brass 4-way cross. The assembly includes a stainless steel male quick-connect plug, adjustable high-pressure toggle swivel, and two 5 ft stainless lance extensions for a total of 10 ft of extra reach.
Designed For Solar Panel Cleaning

- Three spinning nylon brushes help scrub and rinse at the same time.
- Balanced 3-brush layout increases contact area compared to a single brush head.
- Soft nylon bristles help clean solar panel glass, vehicle glass, RV panels, and other smooth surfaces.
- 10 ft total lance extension kit includes two 5 ft stainless extension lances.
- Adjustable pressure toggle swivel lets the operator change the working angle between the brush assembly and wand connection.
- Stainless male quick-connect plug allows fast connection to compatible pressure washing couplers.

Bundle Includes

- (3) Karcher 8.709-314.0 rotating nylon pressure washer brushes
- (1) 1/4 in. FIP brass 4-way cross
- (1) High-pressure adjustable toggle swivel
- (1) Stainless steel 1/4 in. male quick-connect plug
- Required 1/4 in. brass nipple fittings for assembly
- (2) Stainless steel 5 ft pressure washing lance extensions, 10 ft total reach

Suggested Uses

- Solar panel washing
- RV solar panel cleaning
- Glass, smooth plastic, and smooth painted surface rinsing
- Low-pressure soft washing where a rotating brush is preferred over direct spray impact

Solar Panel Triple spinning brushes with 10 Feet of Lance Extensions 20260430 Pressure Washing Attachment

Important Use Notes

- Always test in a small area before cleaning an entire solar array.
- Use appropriate pressure for the surface being cleaned.
- Do not force the brush assembly against panels; allow the rotating brushes and water flow to do the cleaning.
- Follow solar panel manufacturer cleaning instructions and avoid cleaning hot panels in direct sun when thermal shock is a concern.

Why This Kit?
Unlike a single brush head, this triple-brush setup spreads cleaning action across three rotating heads. The included swivel, quick-connect plug, and dual stainless lance extensions make this a more complete solar panel pressure washing attachment for users who need extra reach and faster cleaning coverage.
Designed to be used with your pressure washing gun and lance QD system that is not included.
