Dri-Eaz LGR 5000Li Commercial Dehumidifier – Model 127690 Freight Included

Manufacturer: Legend Brand

Dri-Eaz LGR 5000Li Commercial Dehumidifier – Model 127690

The Dri-Eaz LGR 5000Li is a compact, professional-grade LGR dehumidifier built for water damage restoration, structural drying, humidity control, and flood cleanup work. It delivers high moisture removal in a small, stackable cabinet that is easier to load, transport, and store than many full-size restoration dehumidifiers. Buy the Dri-Eaz LGR 5000Li commercial LGR dehumidifier, model 127690. 80 pints AHAM, 164 pints max, 215 CFM, 5.1 amps, 69 lbs, stackable restoration dehumidifier.

Key Benefits

- 80 pints per day AHAM water removal at 80°F / 60% RH
- 164 pints per day max at saturation conditions
- Only 5.1 amps on standard 115 volt power
- Compact and lightweight: only 69 lbs
- Stackable design: stack up to 3 units for storage
- Roll two stacked units for faster jobsite loading
- Bluetooth and Wi-Fi enabled touchpad for monitoring and control
- English and Spanish controls
- Built-in humidistat for moisture control applications
- Uses 4-PRO filter #100250 with carbon and antimicrobial-treated media

Best Uses

- Water damage restoration
- Flood drying
- Structural drying
- Basements, crawl spaces, rental properties, and commercial buildings
- General humidity control
- Restoration contractors needing compact, high-output drying equipment

Why Buy the LGR 5000Li?

The LGR 5000Li is designed for restoration contractors who want strong drying performance without hauling oversized equipment. Its compact footprint, low amp draw, and stackable design make it a smart choice for daily restoration work, rental fleets, and contractors who need to move multiple units quickly.

Frequently Asked Questions

Q: Can this run on a standard 115 volt outlet?

A: Yes. The LGR 5000Li operates on 115V, 60 Hz power and draws only 5.1 amps.

Q: Is this considered a large dehumidifier in Xactimate?

A: Yes. The manufacturer lists the Xactimate code as WTRDHML.

Q: What replacement filter does it use?

A: It uses the Dri-Eaz 4-PRO Filter, part number 100250.

Q: Can the units be stacked?

A: Yes. Stack up to three units for storage, and roll two stacked units together for faster loading.
