Description
The VersaTool brings proven dual-orbit polishing technology into a new cordless generation. Its synchronized rotating heads delivers smooth, balanced results with precision and control. Engineered for professionals who demand performance and versatility, VersaTool combines power, balance, and durability in one rugged cordless platform.

Driven by a high-efficiency 20V brushless motor, VersaTool™ maintains consistent torque and speed under demanding conditions. Precision-machined alloy gears ensure long-lasting reliability and quiet operation. The dual-orbit motion creates uniform coverage, eliminating swirl marks while providing the smooth, controlled action needed for a perfect finish.

Five variable speed settings allow you to tailor output for everything from deep scrubbing to high-gloss polishing. And with its triggerless control system, VersaTool™ delivers continuous, fatigue-free performance during extended use.
Features

- 20V Cordless Power – High-capacity lithium performance without cords.
