Husqvarna 970652202, Air Scrubber A100, 120V, 1ph, Dust & Slurry Management, GTIN 805544604888

Model Number: 970652202

Husqvarna 970652202, Air Scrubber A100, 120V, 1ph, Dust & Slurry Management, GTIN 805544604888

Manufacturer: Husqvarna Equipment

Husqvarna 970651902, Air Scrubber A45, 120V, 1ph, 0.9hp, Dust & Slurry Management, GTIN 805544604888
Description
Even with adequate dust extraction, the smallest particles may still spread in the air. These particles are often not visible to the human eye. That’s why using air cleaners is crucial in all applications.

The Aâ€¯100 air cleaner is our most productive model and is perfect for commercial spaces and construction sites, making it ideal for surface preparation and demolition jobs. Designed for ease of use and mobility, it can efficiently filter the air volume 10 times per hour in areas as big as 100 m². Multiple units can be combined for larger spaces and demanding work environments. The Aâ€¯100 can also function as both an air cleaner and a negative air machine.

The two- or three-stage filtering system captures various particles commonly produced on construction sites, such as silica dust. The first stage uses a pre-filter to collect large particles and protect the HEPA essential filter. The second stage collects small particles, and an optional third stage with a carbon filter can be installed to collect fumes and odours.

The machine comes with a pre-filter and HEPA H13 essential filter as standard. Additional optional filter confirgurations include a washable pre-filter, H14 essential filter, and an active carbon filter.
Features

- Easy filter monitoring at a glance
- HEPA filter test function
- Tested and verified filter efficiency
- Multiple fan speeds
- Effortless maintenance
- Water-protected for easy decontamination
- Easy to transport
- Smart storage
