Husqvarna 533969201 Primary Cartridge Dust Filter BDC-44 BDC-66 BDC-99 DC655 DC975 DC2-48 Blastrac E10600 Replaces 533969202

Manufacturer: Husqvarna Equipment

Husqvarna 533969201 Blastrac E10600 Cartridge Filter for BDC-44 Dust Collector, replaces 533969202, Sold EACH
Notice:
Husqvarna OEM part 533969201 has been superseded by 533969202.
Either part number may be supplied depending on current factory inventory.
Genuine OEM Husqvarna / Blastrac replacement cartridge filter for compatible industrial dust collectors and surface-preparation equipment.
Genuine Husqvarna 533969201 cartridge filter, formerly Blastrac E10600, for the BDC-44 industrial dust collector. Sold individually; BDC-44 uses four.
Husqvarna part number 533969201 replaces the original Blastrac filter cartridge identified as E10600. This primary dust filter is installed inside the dust collector to capture airborne concrete dust and debris generated during grinding, shot blasting, and other surface-preparation work.
Important quantity information:
The Blastrac BDC-44 dust collector uses four filter cartridges. This webpage is priced and sold per individual cartridge. Order quantity four when replacing the complete filter set in a BDC-44.
Product Information

Manufacturer
Husqvarna Construction Products

Husqvarna Part Number
533969201

Former Blastrac Part Number
E10600

Product Type
Primary cartridge dust filter

Filter Classification

Husqvarna 533969201 Primary Cartridge Dust Filter BDC-44 BDC-66 BDC-99 DC655 DC975 DC2-48 Blastrac E10600 Replaces 533969202

M-Class cartridge

Primary Confirmed Application
Blastrac BDC-44 industrial dust collector

Quantity Used in BDC-44
4 cartridges

Quantity Included
1 cartridge filter

Approximate Dimensions
376 mm long × 258 mm wide × 255 mm high

Approximate Weight
2.315 kg / 5.1 lb

Known and Reported Applications

- Blastrac BDC-44 industrial dust collector — confirmed in the manufacturer parts manual
- Blastrac 2-48DS equipment configurations
- Blastrac DC 975 dust collector
- Additional Husqvarna and former Blastrac surface-preparation equipment using filter number 533969201 or E10600

Compatibility warning: Do not order solely by the appearance of the filter or the model name of the grinder or shot blaster. Dust-collector configurations can vary. Confirm that your existing filter, equipment parts diagram, or owner’s manual specifies 533969201, E10600, or superseded part number 533994501 before ordering.
Works with:

Blastrac BDC-44
Blastrac BDC-66 / DC 655
Blastrac BDC-99 / DC 975
Blastrac DC 2-48
Blastrac BMG 2200RC

Husqvarna 533969201 Primary Cartridge Dust Filter BDC-44 BDC-66 BDC-99 DC655 DC975 DC2-48 Blastrac E10600 Replaces 533969202

What You Receive

- One genuine OEM Husqvarna 533969201 cartridge filter
- Replacement for former Blastrac part E10600
- GTIN 7392930868496

Not included: Dust collector, filter brackets, securing plates, HEPA filter, seals, mounting hardware, or additional cartridge filters.
Maintenance Recommendation
Inspect cartridge filters regularly for damaged pleats, clogged filter media, broken seals, or reduced airflow. Replace damaged or excessively loaded filters to help maintain proper dust collection and protect the dust collector’s fan and downstream filtration components.
When servicing equipment that uses multiple cartridges, replacing the filters as a matched set may provide more consistent airflow and filtration performance.
Frequently Asked Questions
Is this a filter for a Blastrac machine?
Yes. This Husqvarna part originated in the former Blastrac equipment line. Husqvarna part number 533969201 corresponds with Blastrac filter number E10600.
Does the BDC-44 use more than one filter?
Yes. The BDC-44 parts manual identifies four 533969201 cartridge filters inside the machine.
Does this listing include four filters?
No. This listing includes one cartridge. Select a quantity of four when replacing all four BDC-44 primary filters.
Is this the optional HEPA filter?
No. This is the primary cartridge filter. The optional BDC-44 H14 HEPA filter is a different component and uses a different part number.
Can I return the filter if it does not fit?
Please verify the manufacturer part number before ordering. Filters may be subject to return restrictions after packaging has been opened or the filter has been installed or exposed to dust.
Please verify before ordering:
Match part number 533969201, former Blastrac number E10600, or superseded number 533994501 with your existing filter or equipment parts manual.
Husqvarna 533969201 FILTER CARTRIDGE Genuine Husqvarna OEM filters are engineered to maintain proper airflow and filtration efficiency. OEM cartridge dimensions and sealing surfaces are manufactured to the original specifications to help prevent dust bypass and maintain vacuum performance.
