Husqvarna 533382601 SEAL SIDE (SET OF 2) GTIN 7392930811188

Manufacturer: Husqvarna Equipment

Husqvarna 533382601 Floating Side Seal Set of 2 – Genuine OEM
Genuine Husqvarna Construction replacement side-seal set.

Husqvarna part number 533382601 is a floating side-seal assembly supplied as a set of two seals. These seals help contain dust and debris around the working area of compatible Husqvarna surface-preparation equipment.

Replace worn, damaged, hardened, or missing side seals to help maintain proper dust containment and machine performance.

- Two Husqvarna floating side seals
- Part number 533382601

>

Only the parts specifically listed above are included. Mounting hardware, brackets, equipment, and other repair parts are not included unless expressly stated.

Important Compatibility Notice

Husqvarna uses model numbers, product numbers, serial-number ranges, and production dates when identifying replacement parts. Do not order solely by the appearance of the seal.

Please verify Husqvarna part number 533382601 in your machine's parts diagram before ordering. The machine model alone may not be sufficient because parts can change during a production run.

For compatibility assistance, email Steam-Brite a clear photograph of your machine's identification plate showing the complete model, product number, and serial number.

When Should Side Seals Be Replaced?

- The seal is torn, cracked, curled, or permanently distorted
- The seal no longer stays close to the floor
- Dust or debris escapes around the side of the machine
- The original seal is missing or excessively worn

Frequently Asked Questions

Does this listing include one seal or two?

This listing includes one set containing two side seals.

Is this an aftermarket replacement?

No. This listing is for a genuine Husqvarna Construction replacement part.

Is mounting hardware included?

No mounting hardware is included unless it is specifically listed in the "What You Receive" section.

Can I order by comparing my old seal to the product image?

No. Product images may be representative, and visually similar parts may have different dimensions or mounting configurations. Order using the verified OEM part number.

Product Image Notice: Images may be representative and are provided for general identification only. Packaging, color, surface texture, and minor design details may change without notice. Always order by the verified manufacturer part number: 533382601.
