Manufacturer: US Products

US Products 05-10038-P, Pegasus Pro 500 Cold, 5.7 Dual Vac, Dual Cord, Machine Only, with 13in Sharp Shooter & 25ft Hose Set

Description

The US Products Pegasus Pro 50-500 PSI is a commercial carpet extractor (model 05-10038) built for professional carpet cleaning contractors. The dual vacuum system provides the water lift needed for moisture recovery and reduced dry times after extraction.

The Pegasus Pro 500H occupies the high-performance position in the US Products Pegasus line. For IICRC-certified cleaners, the machine-only configuration (05-10038) allows pairing with the specific wand and hose set from an existing setup.

The Sharp Shooter is a dual-jet stainless wand with a 13" cleaning head — wider than a standard 12" wand — allowing slightly faster single-stroke passes on open floor areas while still fitting standard hallways. Heated extraction works by passing solution through the 1,750W inline heater element before it exits the wand jets, elevating solution temperature to improve soil solubility and reduce the chemical dwell time required. Hot solution also accelerates moisture evaporation after extraction, shortening carpet dry times in commercial settings where closed areas cannot be kept off-limits for extended periods. The dual 3-stage vacuum motors in parallel configuration maintain 100" of water lift consistently even as the recovery tank fills, preventing performance drop-off mid-job.
