Model Number: B097

Clean Storm B097, Heavy-Duty 3/8" NPT Brass Ball Shut-Off Valve, 4000 PSI, for Truckmounts and Pressure Washers, 87092170, ah51, 000169064

Manufacturer: Clean Storm

Clean Storm B097, Heavy-Duty 3/8" NPT Brass Ball Shut-Off Valve, 4000 PSI, for Truckmounts and Pressure Washers, 87092170, ah51, 000169064

Color of insulated grip is not guaranteed.

Description

This commercial-grade 3/8" NPT Brass Ball Shut-Off Valve is engineered for high-pressure water systems up to 4,000 PSI, offering exceptional durability and leak-free performance. Built specifically for commercial carpet cleaning truckmount systems and industrial pressure washers, it allows operators to safely and easily switch out wands, injection sprayers, and tools while the system is fully pressurized. Constructed with a premium forged brass body to handle intense system surges and equipped with an insulated safety grip, this full-port ball valve ensures maximum fluid flow and reliable operation under demanding field conditions.

Cross-Reference Compatibility

This high-pressure ball valve is universally compatible and replaces the following manufacturer part numbers:

- Karcher / Legacy SKU: 8.709-217.0 (87092170)
- HydraMaster / Hydromaster SKU: 000-169-064 (000169064)
- Industry Standard SKU: AH51

Specifications

- Material: Forged Brass Body
- Maximum Pressure: 4,000 PSI
- Inlet/Outlet Connection: 3/8" Female NPT x 3/8" Female NPT
- Valve Type: Full-Port Ball Valve
- Application: High-Pressure Water Systems (Truckmount Extractor & Pressure Washer Equipment)
- Handle Type: Insulated Quarter-Turn Lever Grip
