Vacu-Boom 20260904 C-2 Replacement End Cap with Vacuum Hose Connection for VB20-VR1B Vacu-Boom

Model Number: 20260904

Vacu-Boom 20260904 C-2 Replacement End Cap with Vacuum Hose Connection for VB20-VR1B Vacu-Boom

Manufacturer: Steambrite MFG

Vacu-Boom C-2 Replacement End Cap with Vacuum Hose Connection
Vacu-Boom Part Number: C-2
Product Type: Replacement End Cap
Function: Closes the End of the Vacu-Boom and Provides a Vacuum-Hose Connection
Compatible System: Vacu-Boom VB20-VR1B and Other Compatible Modular Vacu-Boom Systems
Quantity: One Replacement End Cap
Connecting Clip: Sold Separately
Vacuum Hose: Not Included
THIS LISTING IS FOR ONE VACU-BOOM REPLACEMENT END CAP ONLY. IT DOES NOT INCLUDE THE VACU-BOOM SECTIONS, RECOVERY VACUUM, HOSES OR COMPLETE VB20-VR1B SYSTEM.
The Vacu-Boom C-2 Replacement End Cap installs at the end of a modular Vacu-Boom wastewater-recovery assembly. It closes the end of the boom while providing the connection point for the system's vacuum hose.
This replacement end cap can be used to replace a missing, worn or damaged end cap on a Vacu-Boom VB20-VR1B wastewater recovery system and other compatible Vacu-Boom configurations.
Replacement End Cap Only
The photographs of the complete Vacu-Boom system may be shown for identification and application reference. This product does not include a complete Vacu-Boom system.
You will receive:

- One Vacu-Boom C-2 replacement end cap with vacuum-hose connection

The following items are not included:

- Vacu-Boom midsections
- Vacu-Boom connecting clip
- Vacuum hose
- Discharge hose
- Wet recovery vacuum
- Automatic pump-out system
- Complete VB20-VR1B system

Connects the Vacu-Boom to the Recovery Vacuum
A Vacu-Boom system uses a modular hollow boom to capture wastewater and other liquid runoff from a hard surface. Vacuum pressure pulls the boom against the surface

Steambrite Supply

Vacu-Boom 20260904 C-2 Replacement End Cap with Vacuum Hose Connection for VB20-VR1B Vacu-Boom

while collected liquid enters the boom through openings along its lower edge.
The C-2 end cap closes the end of the Vacu-Boom assembly and provides the connection through which airflow and recovered liquid travel to the vacuum system.
Connecting Clip Required
A compatible Vacu-Boom connecting clip is required to attach this end cap to a Vacu-Boom section. The connecting clip is not included with this replacement end cap and must be reused from the existing system or purchased separately.
Compatibility
This replacement end cap is intended for compatible modular Vacu-Boom wastewater recovery and spill-containment equipment, including the:

- Vacu-Boom VB20-VR1B 20-foot wastewater recovery system
- Compatible Vacu-Boom linear/open-ended systems
- Compatible Vacu-Boom modular boom sections

Vacu-Boom systems have been manufactured in multiple sizes and configurations. Compare the existing end cap, boom connection and vacuum-hose connection before ordering.
If you are uncertain about compatibility, provide Steam-Brite with photographs of your existing end cap, connecting clip, Vacu-Boom section and vacuum-hose connection before placing the order.
Typical Reasons for Replacement

- Original end cap is missing
- Vacuum-hose connection is cracked or damaged
- End cap no longer seals properly
- Connection area has become distorted or worn
- An additional end connection is needed for a different boom arrangement

Installation

- Turn off and disconnect the recovery vacuum.
- Remove the connecting clip from the existing Vacu-Boom end cap.
- Remove the damaged or worn end cap.
- Inspect and clean the end of the Vacu-Boom section.
- Position the replacement end cap against the boom section.
- Secure the end cap using the appropriate Vacu-Boom connecting clip.
- Connect the existing vacuum hose to the end-cap hose connection.
- Start the vacuum and inspect the assembly for air or liquid leakage.

Important Ordering Notice
This listing is for one replacement end cap only. Do not order this item if you need the complete VB20-VR1B wastewater recovery system, a replacement boom section, connecting clip or vacuum hose.
Replacement parts may not be returnable after installation or use. Verify the required part and compatibility with your existing Vacu-Boom system before ordering.
