Model Number: S1540SV2GL

PMF S1540SV2GL 30 Inch Long 2 Jet Swivel stair Tool with Teflon Carpet Cleaning Glide

Manufacturer: Production Metal Forming

PMF S1540SV2GL 30-Inch 2-Jet Swivel Stair Tool with PTFE Carpet Glide

Manufacturer: Production Metal Forming (PMF)

Manufacturer Part Number: S1540SV2GL

Tool Type: Open-Spray Swivel Stair Wand with Slotted PTFE Glide

Overall Length: 30 Inches

Cleaning Head Width: 9-3/4 Inches

Number of Spray Jets: 2

Maximum Pressure: 1,000 PSI

Construction: Stainless Steel

Valve: PMF V1-EZ Forged-Brass Valve

Country of Manufacture: USA

Professional Swivel Stair Wand with Replaceable Carpet Glide

The PMF S1540SV2GL is a professional 30-inch stair-cleaning wand designed for hot-water extraction carpet cleaning. Its swivel head helps the 9-3/4-inch cleaning head stay properly positioned on stair treads and risers while reducing the wrist and arm movement required with a fixed-head stair tool.

Two solution jets distribute cleaning solution across the working path. The stainless-steel head is fitted with a replaceable slotted PTFE (Teflon-style) carpet glide, which reduces drag and helps the tool move more smoothly over carpet while maintaining strong soil and moisture recovery.

Features and Benefits

- Swivel-head design: Improves access to stair treads, risers, landings and other confined carpeted areas.
- 30-inch overall length: Provides useful reach while remaining compact enough for stair work.
- 9-3/4-inch stainless-steel head: Covers residential and commercial stair surfaces efficiently.
- Dual-jet open spray: Applies solution directly to the carpet for extraction cleaning.
- Slotted PTFE carpet glide: Reduces friction and operator fatigue while promoting consistent recovery.
- Replaceable glide: The wear component can be replaced without purchasing a complete new stair tool.
- 1,000-PSI valve: Equipped with the PMF V1-EZ forged-brass solution valve.
- Stainless-steel construction: Built for professional cleaning environments.
- Made in the USA: Manufactured by Production Metal Forming.

Specifications

Brand

PMF / Production Metal Forming

>

Part Number
S1540SV2GL

Application
Carpeted stairs, risers, landings and confined carpeted areas

Spray Style
Open spray

Overall Length
30 inches

Head Width
9-3/4 inches

Spray Jets
2

Head Movement
Swivel

Glide
Replaceable slotted PTFE carpet glide

Maximum Rated Pressure
1,000 PSI

Valve
PMF V1-EZ forged brass

Primary Material
Stainless steel

Made In
USA

What Is Included

>

- PMF S1540SV2GL 30-inch, two-jet swivel stair tool
- Installed slotted PTFE carpet-cleaning glide
- Installed PMF V1-EZ 1,000-PSI solution valve

Please note: Vacuum hose, solution hose and extractor are sold separately. Display images are for reference; orders are fulfilled according to the manufacturer part number shown above. Specifications are subject to change without notice.
