Aquatec RK-C305D Pressure switch Diaphragm for All 58 Series Pumps including Mytee C305 and C322D Pumps

Model Number: RK-C305D

Aquatec RK-C305D Pressure switch Diaphragm for All 58 Series Pumps including Mytee C305 and C322D Pumps

Manufacturer: Aquatec

Aquatec RK-C305D Pressure Switch Diaphragm

Replacement diaphragm for Mytee C305 and C322D pumps.

The RK-C305D fits between the pressure switch assembly and the pump head. When this diaphragm is damaged, water can leak at that connection. Replace the worn diaphragm while retaining the existing switch assembly.

Part Details

Part number
RK-C305D

Part type
Pressure switch diaphragm

Compatible pump models
Mytee C305 and C322D

Installation location
Between the pressure switch assembly and pump head

Quantity
One diaphragm, sold each

Included component
Diaphragm only; pressure switch assembly, pump head and complete pump are sold separately.

Replacement Instructions

Disconnect electrical power and relieve water pressure before servicing. Keep the switch spring and other internal components in place during removal. Install the new
