Manufacturer: Karcher Pressure Washing

Karcher 2.644-228.0 Add-on Kit Deflector Roll Stackable
Description
Specially developed attachment kit with additional bumper rollers for scrubber dryers, which are frequently used in difficult conditions, as is the case in narrow spaces on heavily furnished areas in supermarkets and for cleaning right up to the edges of obstacles and walls, e.g., in production halls or warehouses. Raised shelves, pallets or even guide rails are typical examples, where there may be a risk of the squeegee hooking on or colliding. In order to minimise this risk, Kärcher recommends the use of these additional non-marking bumper rollers. These easily attach to the standard bumper rollers on the ends of the squeegee. The height of the squeegee at its ends is increased to roughly 16 centimetres, which helps to avoid damage to the machine and inventory.
