Karcher 6.043-058.0 Roller Shutter Control Attachment kit for KIRA Machines

Description

The roller shutter control attachment kit allows the KIRA B 50 and KIRA B 200 cleaning robots to control roller shutters automatically. Each roller shutter must have one receiver, which is simply installed in the housing or terminal box. This is set up via the robot's touchscreen for added convenience. The roller shutter control makes the autonomous cleaning process more efficient by allowing machines to open shutters independently. Every roller shutter with a receiver installed can be controlled by several KIRA robots with transmitters (order no. 6.043-057.0, available separately).
